

Building Careers.
Changing Lives.

TUITION-FREE CONSTRUCTION JOB TRAINING PROGRAM

Take your first steps towards starting a career in the building trades. Get hands-on training, learning useful skills to build, repair, and maintain structures and their components while working on projects through to completion. Work with instructors who will guide you through the curriculum. Find support from staff throughout the entire training process, from enrollment to graduation. A career in construction can provide many opportunities. If you put in the time and effort, you can advance and succeed in your chosen trade, while engaging in meaningful, exciting work that can make a difference.

- ▶ No experience necessary
- ▶ Up to 9 weeks of training
- ▶ Learn from skilled trades instructors using industry-recognized curriculum
- ▶ Earn industry certifications including OSHA
- ▶ Job placement assistance

Choose to study in one of 2 trades:
