

ACADEMIES

HBI Academies offer hands-on, industry-recognized training in the skilled trades, preparing students for rewarding careers in residential construction.

HBI ACADEMIES PROVIDE:

- ▶ **No-Cost Training** – Thanks to partnerships with local homebuilders, industry partners, foundations, and individual donors, students can access training at no cost.
- ▶ **Industry-Recognized Curriculum** – HBI's Pre-Apprenticeship Certificate Training (PACT) ensures students receive high-quality education aligned with industry standards.
- ▶ **Job Placement Support** – HBI works closely with homebuilders and employers to connect graduates with career opportunities.
- ▶ **Hands-On Experience** – Students gain real-world skills through practical training and on-site projects.
- ▶ **Career Readiness** – Training includes essential employability skills, safety certifications, and professional development to ensure long-term success.

Since 2021:
3,441 Enrolled Academy Students
5,753 Industry-Recognized Certifications Earned

*Academy students have the opportunity to earn multiple certificates during their enrollment.

HBI Academies create a direct pipeline into the construction industry, helping to bridge the skilled labor gap while empowering students with sustainable career pathways.

ACADEMY TRADES OFFERED:

Carpentry and/or **Electrical** (varies by location)

By investing in HBI Academies, our partners help strengthen local economies, support workforce development, and ensure that the next generation of skilled professionals is prepared to build America's homes and communities. These partners are essential for the sustainability for our tuition-free programs.
